WIREFRAME DESIGN

Homepage

The homepage consists of a welcome page with a 'Latest Arrivals' section. In the centre of the page, there will be a picture slide which shows different vehicles. The seller gets an option to log into their account or register on the home page. If the seller isn't logged in, they can't sell any vehicle, they can only view them.

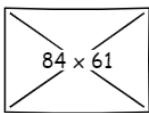

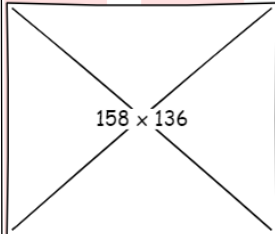

On the homepage the seller can easily navigate between the homepage, register page, my cars page, sell my car page and about us page. The homepage also has a title with a placeholder for its logo.

My Cars

Once logged in the user can access the list of vehicle they have added or uploaded. On this page the user can either edit the vehicles details or delete the vehicle if they choose not to sell it anymore or if it has been sold.

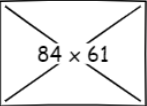

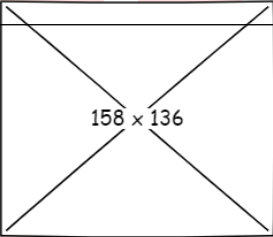

To edit the vehicle's descriptions the user clicks on the view description button. That button takes the user to a new page that contain all information related to that vehicle. Apart from that there is a slideshow where the user can view the images or video they have uploaded for the vehicle.

Sell My Cars

On this page the user uploads a vehicle they want to sell. They need to input things like the vehicle's name, make, model, mileage, location, fuel type, price and images or video of the vehicle. The user will also come to this page when making changes to the vehicle's description.
